12TH ANNUAL GOVERNMENT MEETS THE BUSINESS CONFERENCE

THE BIG QUESTIONS FOR 2018

Will Bulgaria achieve sustainable growth while losing human capital?
How can the Bulgarian economy be more attractive to those working abroad?

January 30, 2018
Sofia Hotel Balkan

Direct Questions.
Concrete answers

Although the Bulgarian economy has continued to register sustainable growth in recent months, businesses are faced up with a serious challenge that has a strong potential to curb future growth — a shortage of people.

By way of tradition, the annual meeting of businesses and the government will bring together key government officials and the owners of the largest companies in Bulgaria. They will have an opportunity to discuss both government policies and the business strategies that can help reverse this negative trend.

Participation fee: 704 BGN VAT incl.

AMCHAM members can take advantage of a special 20% discount from the registration fee. When registering, please enter **AMCHAM** in the "discount code" field on the event website in order to receive the discount.
